WE MOVE Educational Webinar
Series Continues ...

"Talking with the Doctor about Your RLS Symptoms: Open Lines of Communication... Living with RLS"

WE MOVE is pleased to announce the continuation of its educational webinar series. On October 3rd, 2007 at 8pm EDT, WE MOVE will sponsor an interactive webinar titled, "Talking to Your Doctor about Your RLS Symptoms." This one-hour online event will be hosted by WE MOVE and healthcare professionals who will provide information and answer questions from people living with RLS *in real time*. This interactive online seminar will feature faculty members John W. Winkelman, MD, PhD (faculty chair), Aatif Husain, MD, and Margaret Trussler, ARNP, MS, all of whom are experts in the diagnosis and management of RLS. Although this Webinar addresses concerns that are specific to RLS, this important discussion is appropriate to all those affected by a movement disorder.
